

# AVOMD

Bringing clinical evidence into the workflow

Standardize care and eliminate time wasted searching through evidence-based guidelines with customized clinical decision support directly in your workflow.

Contact us to request GOLD COPD and other guidelines in your EHR!

- ✓ **Time Saved:** 43-55% of time saved at the point-of-care with features such as *auto-drafted notes*
- ✓ **Outcomes:** 36% improvement in admission delays in the ED
- ✓ **Cost Savings:** \$116K per unnecessary ICU admission avoided and *HCC coding available*
- ✓ **Easy Customization:** No-code builder allows systems to leverage guidelines and protocols at the point-of-care across many use cases
- ✓ **Clinician Experience:** Nearly 100% of users advocate for expanded AvoMD usage
- ✓ **Simple Deployment:** Available with minimally involved integrations in Epic/Athena

Visit our **Learning Lab** to demo AvoMD's clinical tools that will save you time!

 **When:** November 13th, 6PM - 9PM ET

 **Where:** USS New Jersey room, 2nd Floor of Hilton Philadelphia at Penn's Landing

 **Overview:** Demo relevant cardiology and primary care clinical guidelines.

**Come demo 150+ digitized guidelines in AvoMD, such as:**

- AHA/ACC Hypertension Outpatient Management
- AHA/ACC Heart Failure Management
- AAFP Primary Care Guidelines (20+)
