

Are you looking to learn how to live better with your Asthma, COPD, ILD, or other lung condition?

Join Us for:

Pulmonary Chat

Online patient support group

Right2Breathe Pulmonary Chat is an online, virtual meeting. We bring in speakers who provide education on various topics relating to living with lung disease, then we encourage participants to engage in Q & A as well as share their experiences with the group. Some of our topics have included Pulmonary Rehab, Nutrition, exercise for people with limited lung function, oxygen therapy, brain health, and many more.

Pulmonary Chat is a welcoming, friendly environment where people from around the country (and even around the world) can learn how to better manage their lung disease by learning from experts as well as their peers.

Every 2nd, 3rd, and 4th Tuesday of the month @ 4:30 Eastern
